Subject: Anti-trust suit

Dear Sir or Madam:

Stop wasting my money, and the money of every other taxpayer, by harassing an excellent company that has changed the way America and the world use their computers. They're not perfect. Who among us is? This suit has had drastic, negative effects on our economy, and it's time to stop.

There are terrorists to fight. There are real criminals. Use your resources to get them, and leave Microsoft alone.

Respectfully,

Robin Patchen
